

## **Message from the District Collector, Kozhikode**

It gives me immense pleasure to note that the Skill Development & computer Centre (SDC), Kozhikode, functioning under the Kozhikode District panchayat, is entering its Silver Jubilee year

Since its humble beginning in 2001 as a training centre for newly literate persons, SDC has in to a recognized institution imparting quality vocational and technical skill training to students and youth from diverse backgrounds. With the support of government agencies, dedicated faculty and commitment of the district Panchayat, the centre has able to extend affordable training opportunities and placement support to thousand of learners

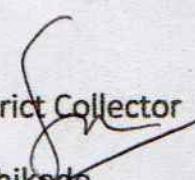

I am glad to acknowledge that in 2008 when the present chief secretary of Kerala Dr. Jayathilak IAS was serving as District collector, Kozhikode he had temporarily allotted a building for SDC's activities, which continues to serve as the main training centre. This timely support enabled the institution to strengthen its training infrastructure and expand its services.

In today's world, Skill development is the key to self reliance employability and entrepreneurship I am confident that SDC's initiatives, including, its proposed entrepreneurship Cell and the special benefits offered during this Silver Jubilee Year 2026 will empower more young people to achieve success in their chosen paths both in employment and enterprise

I extend my warmest congratulations to SDC Kozhikode District Panchayat, the Governing Body, faculty, staff and trainees on this special milestone and wish the institution continued growth and excellence in the year ahead

Kozhikode
